

YOUR DOCUMENTS ANYTIME, ANYWHERE

WHAT IS DigiLocker

DigiLocker is a key initiative under Digital India, the Indian Government's flagship program aimed at transforming India into a digitally empowered society and knowledge economy.

Targeted at the idea of paperless governance, **DigiLocker** is a platform for issuance and verification of documents & certificates in a digital way, thus eliminating the use of physical documents. Indian citizens who sign up for a **DigiLocker** account get a dedicated cloud storage space.

Organizations that are registered with **DigiLocker** can push electronic copies of documents and certificates (e.g. driving license, Voter ID, School certificates) directly into citizens' lockers. Citizens can also upload scanned copies of their legacy documents in their accounts. These legacy documents can be electronically signed using the eSign facility.

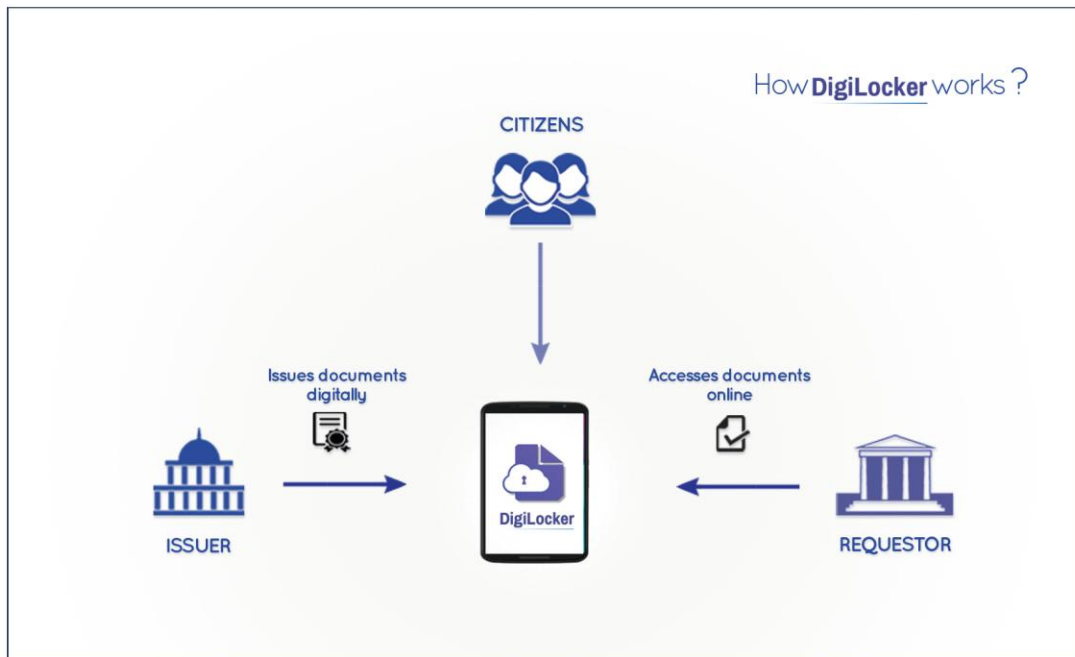

DigiLocker ties into Digital India's focus areas of

1 Shareable private space on a public cloud

2 Documents / Certificates to be available on cloud

BENEFITS OF DigiLocker

- » **Access:** Citizens can access their digital documents anytime, anywhere and share it online.
- » **Paperless:** It reduces the administrative overhead of Government departments by minimizing the use of paper.
- » **Authenticity:** DigiLocker makes it easier to validate the authenticity of documents as they are issued directly by the registered issuers.
- » **eSign:** Self-uploaded documents can be digitally signed using the eSign facility (which is similar to the process of self-attestation).

DigiLocker is now also available on your mobile devices on Android platform

Features of the DigiLocker mobile app

- » Users can download the DigiLocker mobile app from the Google Play Store.
- » Users can log into the DigiLocker app from their mobile devices and access their documents and certificates.
- » Users can manage the documents in their DigiLocker from the mobile app as well.
